

5 MOST COMMON INTERIOR DESIGN MISTAKES THAT (ALMOST) EVERYONE MAKES!

AND HOW TO AVOID THEM...

Artwork for Interiors

It happens to everyone--- you are shopping and see a piece of art and immediately you think, Oh! this will look perfect in my TV room! Of course, you give in to the impulse buy and excitedly bring home your new-found treasure--- only to discover that what looked like the ideal piece looks hideous when put in place, and you are left saying, What was I thinking? Where did I go wrong?

Scale

The room is too small!
Or your print is too big! Either way, it doesn't work!

Colors

Oops! The color tone in the print you love is at odds with the colors in the room...

Style

The artwork you chose won't work with the interior design style in your home or office.

Framing

Your art is framed BUT the frame doesn't work in the room!

Connection

The art is pretty but doesn't really capture attention in the space.

Character

The art is too "matchy" for the room. There isn't enough contrast.

Virtual Interiors

Here's how to avoid these mistakes and stay on budget at the same time!

See the art in the room FIRST!

1. Take a photo of the room(s) you want to put the artwork in.
2. Open the photo of your room in Canva, Photoshop, Photopea, or some other image editing or design software.
3. Choose a piece of art, or more than one.
4. Import the Photo(s) of the artwork you want to put in the room and then scale it to the size you want.
5. Voila! You can see exactly what the artwork and/or photography you want to purchase will look like in your interior design.

Art Consulting

Try out our "Virtual Interiors Service"

Custom Curated Artwork & Photography

1. Send me a photo of where you want the art (info@zenbizboss.com).
2. Tell me a bit about your design goals and current style(s)
3. I will send you virtual interior mockups for you to choose from.

p.s. when you use this service, you also get our "designer discount" of up to 40%

It's As Easy As 1,2, 3!
